THE PULL OF A PERFECT PINOT

Sensitive yet temperamental but notoriously thin-skinned and fickle, Pinot Noir is named for the French words for 'pine' and 'black'. Its tightly clustered, pinecone-shaped bunches of fruit make it a difficult variety to cultivate and transform into wine; but when a winemaker's finesse gets Pinot Noir right, the result is pure magic.

Thought to hail from Gouais Blanc, Pinot Noir is a rare variety grown in only a few select areas of France; such a Burgundy and Champagne. Young Pinot beguiles with silky sweet strawberries, cherries and violets; while mature Pinot offers intriguing earthy, forest floor flavours and savoury gaminess. An extra special allure of the Pinot Noir grape is that it's also integral to many Rosé and Sparkling wines and iconic Champagnes.

The very best Pinots in the world, the earthy and floral Grands Crus of Burgundy, are made in minute quantities and command dizzying prices; but you don't have to travel too far from home to enjoy a stellar Pinot. In Australia, the variety flourishes best in our temperate and cooler viticultural regions such as the Yarra Valley, Tasmania, Adelaide Hills and Mornington Peninsula. And these winemakers sure know what we're doing with Pinot. They've had plenty of practice taming its temper – we've been growing the variety that James Halliday calls the 'nectar of the gods' since the 1830s.

From pork, chicken, pheasant and quail to beef, salmon, charcuterie, pâté and terrines; the early-ripening, heavily perfumed Pinot proves to be a decadent companion on the dinner table thanks to its higher acidity, lower tannin profile and smooth finish. But perhaps its most popular pairing is with duck and mushroom dishes. Our choice? The Penfolds Bin 23 Pinot Noir 2018 from this collection with a duck, mushroom and red wine ragout – a perfect winter dining experience.

WE HOPE YOU ENJOY OUR 90+ RED COLLECTION.
