

# Fifth Leg

serious about wine

## Chardonnay

The story behind Fifth Leg goes a little like this... Not far from the Devil's Lair winery in Margaret River there is a legendary cave with the same name. During some archaeological digging the fossilised remains of a Tasmanian tiger were found, together with a mysterious fifth leg.

The Fifth Leg Chardonnay is a crisp, refreshing wine with supple texture and balance. It's a wine full of zesty citrus, vibrant stone fruits and subtle toasty notes.
